

LOTUS DY

UNDER-SINK WATER PURIFIER

Meet the LotusDY – an advanced under-sink purifier designed to help deliver cleaner, safer & customized drinking water. Built around globally recognized patents, it's designed to set a new standard in household point-of-use water treatment. Pair it with the T-18 whole-house for a complete whole-home & kitchen solution.

FEATURES **7 + STAGES** **> 0.007 micron**

AIR RELEASE – GLOBAL PATENT

Designed to release toxic gases such as radon, sulfur & chlorine that may be present in source water. Designed to reduce aerobic bacteria growth, parasites & viruses.

CHLORINE REDUCTION

Contains active carbon that designed to reduces up to 99% of chlorine for better taste and odor.

ENHANCED WATER FILTER

Designed to reduce a wide range of water-quality concerns (including arsenic, metals, microplastic fibers, and other residues) while preserving essential minerals naturally present in water.

SCALE REDUCTION

Designed to reduce up to 99% scale deposits without using salt or traditional softening chemicals.

VITALITY – GLOBAL PATENT

Magnesium levels can be adjusted using the filter's built-in calibration button.

ANTIOXIDANT WATER

Designed to support low oxidation potential (negative ORP).

HYDROGEN-RICH WATER

Designed to support Hydrogen-rich water with nano-scale bubbles.

WHY CHOOSE TIPATECH?

GLOBAL UNIQUE PATENT

Patented technology designed to support whole-house water quality and long-term reliability.

ECO-FRIENDLY

No electricity, salt or softeners.

EASY TO INSTALL & MAINTAIN

Compact in size yet powerful in performance. Cartridge to be replaced every 12 months.

CERTIFIED

IAPMO R&T, UPC compliance to applicable standards:
NSF/ANSI/CAN 372-2002
NSF/ANSI 42
NSF/ANSI 61

WARRANTY

Limited One-Year warranty
(t's & c's apply)

SPECIFICATIONS

LotusDY Height: 15.74" (40cm)
LotusDY Diameter: 5.90" (15cm)
LotusDY Weight: 6.17lb (2.8kg)
Working pressure: 21.75–58.01psi (1.5–4bar)
Flow: 0.5 gallons (1.9 liters) / minute
Average Cartridge Lifespan: 1,056.68 gallons (4,000 liters) or 1 year, whichever comes first

Disclaimer: This one pager is for general informational and marketing purposes only. Actual performance depends on source water quality, plumbing, installation, and maintenance. Statements about contaminant reduction reflect design intent unless supported by applicable third party certifications or test results for the specific model/configuration. Micron ratings refer to filter media design and do not represent a guarantee for every contaminant. Not medical advice.
